The sub tect of this lecture-"The Rastern Question Politically Viewed," is one that Mr. B fully under stands, having been born and always lived unde Torkish rule. The "Sick Man," as Turkey has has been often threatened with annihilation as a political power in Europa, but the question of the disposal of her domain has brought the antagonistic powers of Essiern and Western Eu-Turker in a war rather than see Russia extend her power by the absorption of the Musselman's territory. Even when a northern Turkish proince establishes independence by ancressful revoit, the Great Powers of Europe interpose their nediation to make favorable treaties for Turkey No one who wishes to understand the Rasters Question in its political aspects should be absent | Thompson, Droggist, No. 12 Dismond and 2 Question in its positions appears assets be success.
